

Shocking disclosure of the truth about what happened on September 11, 2001.

Much has been written on the subject of 9/11, the destruction of the iconic twin towers in New York, and the attack on the Pentagon. That fateful day was sold to the world as a terror attack on not only the US, but also on the democracies of the Western world. Some 2,753 people died on the day. However, even more have died since in the area of the World Trade Center (WTC): First Responders, post 9/11 clean-up crews, residential tenants, and business tenants. The cause was asbestos-induced cancer...

While the US Government was quick to point the finger at Al-Qaeda and the bogeyman Osama bin Laden, few in the world understood that these attacks had not come “out of the blue”. They had emerged from a previous WTC terrorist attack with FBI involvement, and from a murky pond of a long-running malicious US corporate and political attack on legitimate in oil and gas deals worth trillions of dollars by the Argentinian company Bidas relating to a trans-Afghanistan pipeline.

As Bush and Cheney were sworn in, events escalated to a covert US Government plot of corruption and raw power in Afghanistan and the wider region. Yet the focus emerged in plain sight when CENTCOM General Tommy Franks stated that the primary mission in Afghanistan was “the pipeline and access to the region’s resources”.

Karl Schwarz describes these events and the 9/11 attack as a “Pearl Harbour” to justify a shift in the Bush-Cheney Oil Strategy. He speaks out for the people that

died in the WTC attack, together with those who died as a result of a WTC asbestos issue that was well known to those 'in the know.' He also speaks up for those that have died or been maimed in the wars and conflicts that have arisen from US policy following the 9/11 'Pearl Harbour'. They include US troops as well as military personnel and civilians of other nations.

Watch KS interview, to understand the events leading to the destruction of the iconic twin towers in New York and the attack on the Pentagon. Sold as a terror attack on the US and the Western world, the US Government quickly pointed a finger at Al-Qaeda and then unleashed its corrupt war on the Middle East and Afghanistan to gain raw regional political power and long-coveted regional energy supplies. Millions died as a result of the Bush-Cheney Energy Strategy and malicious warmongering.

Please join Part 1 of this vital interview as Karl Schwartz lifts the lid on the US power play leading to 9/11, the evidence hidden in plain sight, and the repercussions of a terror attack fomented in the West and pinned on the world.

In Part 2, Karl Schwarz shifts the focus to attack and post-attack evidence related to both the 9/11 and the Pentagon's Ground Zero scenes. This includes aircraft types, engine types and sizes, aircraft window wreckage, aircraft wing wreckage, the significance of the A3 Skywarrior aircraft, and, last but not least, photos from inside the World Trade Center showing BB18 boxes used in controlled demolitions...

The Real Truth on September 11, 2001 is on the table and more coming, Part 3 is already in the works. There's also a presentation that outlines the Deep State's insidiously thought-out plans for organizing such a huge terrorist attack...

All this, confirmed by the [hidden] first-hand information (from the well-informed source) leaves no stone unturned from the mountains of lies and disinformation that have been spread for 24 years by the vile organizers of that terrible Crime of the century and parroted by the puppet rulers of the dependent countries (European leaders, the Kremliners and other vassals of the State Dept, DC)...

The author of the interview is not only a very knowledgeable, but also a quite brave person, one of the few who decided to reveal the bitter Truth about the existing defective world order which for decades has been causing irreparable damage to human society and the surrounding biosphere...

Regrettably, today there is none to stop all those monsters of the Empire of Evil and the Golden Calf, the Masters of Deceit...

The Messiah hasn't gathered His full strength yet...

AND ONE IS WARRIOR IN THE FIELD.
CONFESSION OF AN AMERICAN FIGHTER WITH THE DEEP STATE

I am one of the most blocked and most shadow banned of the entire 9-11 Truth movement plus what I do in nanotechnology that many people covet but not for sale or a takeover target.

After I went public against George W. Bush (my book, 200 articles, 200 radio shows for 1-2 hours), and what the US did on September 11, 2001, I was all over the Internet. Nothing I said in writing or on radio has yet to be disproved, rather frantically avoided because it shreds and reveals the DC Official Story is a colossal lie and coverup.

In the range of late 2003 to 2005, a person could search just "Karl Schwarz" and get 10.6 million hits that were just me. Once they developed the search blocking or shadow banning, any search for "Karl Schwarz" does not show me at all, and that has been the reality since around 2006-2007. To find one of my articles, a person must know the name of that article and at times even the website name, it was posted on.

The last article I wrote about September 11, 2001 is the following link and was in 2015. You cannot find it just searching my name, must add Rense and/or First Responders and sometimes that does not get it found. Sometimes a search like "Karl Schwarz why do first responders" is the only path around the blocking and shadow banning.

Anyone that read this article knows exactly where I drew the line on 9-11 Lies by NYC and the US government.

<https://rense.com/general96/whydo.html>

If a person searches "Karl W B Schwarz" right now, the only thing that comes up is my book that came out in 2004 and still selling on Amazon at prices far higher than I sold them for at \$24.95 plus shipping and then dropped the price to \$19.95 plus shipping to clear out a warehouse. We sold enough books in just the first 90 days to be on the "NYTimes Bestseller List", but never acknowledged as such due to what I disclosed in the book. It is not often that a sitting Republican President gets shredded and outed as a liar and criminal by a real Conservative Republican.

I made \$0 on the book, did not need the money back then. The money kept 2 Truth Radio Networks on the air, so people could listen and learn. That did not include Alex Jones, he and I are not friends. His InfoWars team took many cheap shots at me when Alex figured out his competitor RBN Network in Round Rock TX, near Alex Jones base in Austin was selling many of my books and all of the money went to keep them on the air and not Alex Jones...

Recently when Brian Gerrish of UK Column and I did the interview Part 1 on April 3 and Part 2 on April 10, I was suddenly "findable" again for 24-28 hours and now nothing unless either "Karl Schwarz UK Column" or "Karl W B Schwarz UK Column" are the search command. This is one of the many ways the US Deep State tries to prevent being held accountable, or the public being informed and knowing the truth. The first interview was on February 18, 2025 and did not come out good. We recorded Part 1 and Part 2 on March 25, and it took until April 3 and April 10 to get the editing done and how Brian wanted to tee it up and get a lot of Truth on the air and on the record.

One of my associates has been compiling a website page for me, so if people ask, I can send them this link and they can see who I am and what I stand for regarding the Truth. You can tell by the second PDF that Brian Gerrish and I could not get that entire PowerPoint on the record in Part 1 and Part 2.

<https://fractalfield.com/nanotechconfidential/>

You will see Part 1 and Part 2 at that link. More importantly, you can see the blue background PowerPoint (now converted to PDF) I prepared for September 11, 2001 in NYC as "9-11: Confronting the Evidence". All of that information is straight out of my book. Just below that with white background, you can see the 40-page document with evidence, facts and names that Part 1 and Part 2 are based on. I sent that to Brian Gerrish as a baseline of what to discuss, but we got just a small part done in over 2 hours.

This 40-page PDF document available at the link above is merely excerpts from a 240 page indictment document I prepared for my attorneys in the US. Brian has seen that too, and knows we have a colossal amount of evidence that the US Deep State monsters hope they never have to answer for in a Court of Law in front of a Jury. They know the Final Verdict will be extremely harsh on them and they deserve whatever the Jury Verdict is. Whether that be turn them into paupers and life in prison or execute them as paupers, monsters, mass murderers and War Criminals, because they deserve it.

Part 3 on UK Column is in the works now and I can assure all who see Part 3, the USA is going to wig out. They declared war on me, so they get nuclear level return fire in their face from me in Part 3. I sent Brian Gerrish a Word doc of where to hit and how hard. When he gets his mind around that, we'll do Part 3.

That is because of something they did to me and one of my key associates this year on January 2 and 7, 2025. What the US did harmed me for \$5 million that would have been on my bank account right now, and seriously delayed another 64 million Euros that would have been on my account by the end of this year. That matter is detailed below in "My Chronology".

Most of the 9-11 Truth groups know I have far more evidence than they do. However, each of them and their focus has provided me key things I did not have time to look for while following other criminal trails to nail the defendants that did September 11, 2001. The missing pieces of the puzzle have been collectively found by the 9-11 Truth groups and the picture that is truth and reality is horrible and ugly.

In a Tucker Carlson interview with former Vice Chairman of US House Armed Services Committee Curt Weldon stated in that interview "the bottom line and the truth about September 11, 2001 is going to be very ugly". Curt Weldon did not add "for the US Deep State and the United States government."

In Curt Weldon's interviews with Tucker Carlson and Clayton Morris of "Redacted" he hit the nail squarely on the head by stating "they are scumbags making millions off the chaos, death and destruction they created". I estimate there are possibly up to 10,000 scumbags that know exactly what happened on September 11, 2001, but they utter not 1 word because they are the scumbags that Curt Weldon and I know exist and they have been reaping huge amounts of money.

There is not 1 terrorist Saudi name involved except as business partners with UNOCAL, and with Amerada Hess. Then Bush appoints who was CEO as Chairman of the 9-11 Commission. There are a lot of American names plus 1 Kuwaiti who is from a family that has blood on their hands due to lies to help GEORGE H W BUSH attack Iraq in 1990 DESERT SHIELD and 1991 DESERT STORM, another completely fabricated and illegal war of aggression by the Bush Family. Old saying: "Like father, like son".

Why would this Kuwaiti be directly involved in the WTC security company, and then pull the plug on his Delaware corporation and quietly depart shortly after September 11, 2001?

To truly grasp and understand September 11, 2001 requires a knowledge base and facts that span from 1987 to almost 2021 and a little beyond. The coverup has been colossal and many defendants involved that were "hands on" to attack and destroy the WTC and the Pentagon to silence a huge investigation as to where \$2.3 trillion disappeared to. .

I did not focus on just the day of September 11, 2001. The real Chronology Lines are 1987 to 2005 on World Trade Center and 1992-2006 on why Bush attacked a nation that had nothing to do with 9-11. As an act of desperation Bush even tried to drag Iraq into his colossal deception a second time in March 2003. Later also directly behind the attack by Georgia on South Ossetia in August 2008 as "PIPELINE ROUTE B" because the Taliban, China and Pakistan completely blocked his PIPELINE A across Afghanistan. There are other chronology lines that go as late as 2016-2021 regarding the coverup that is still ongoing.

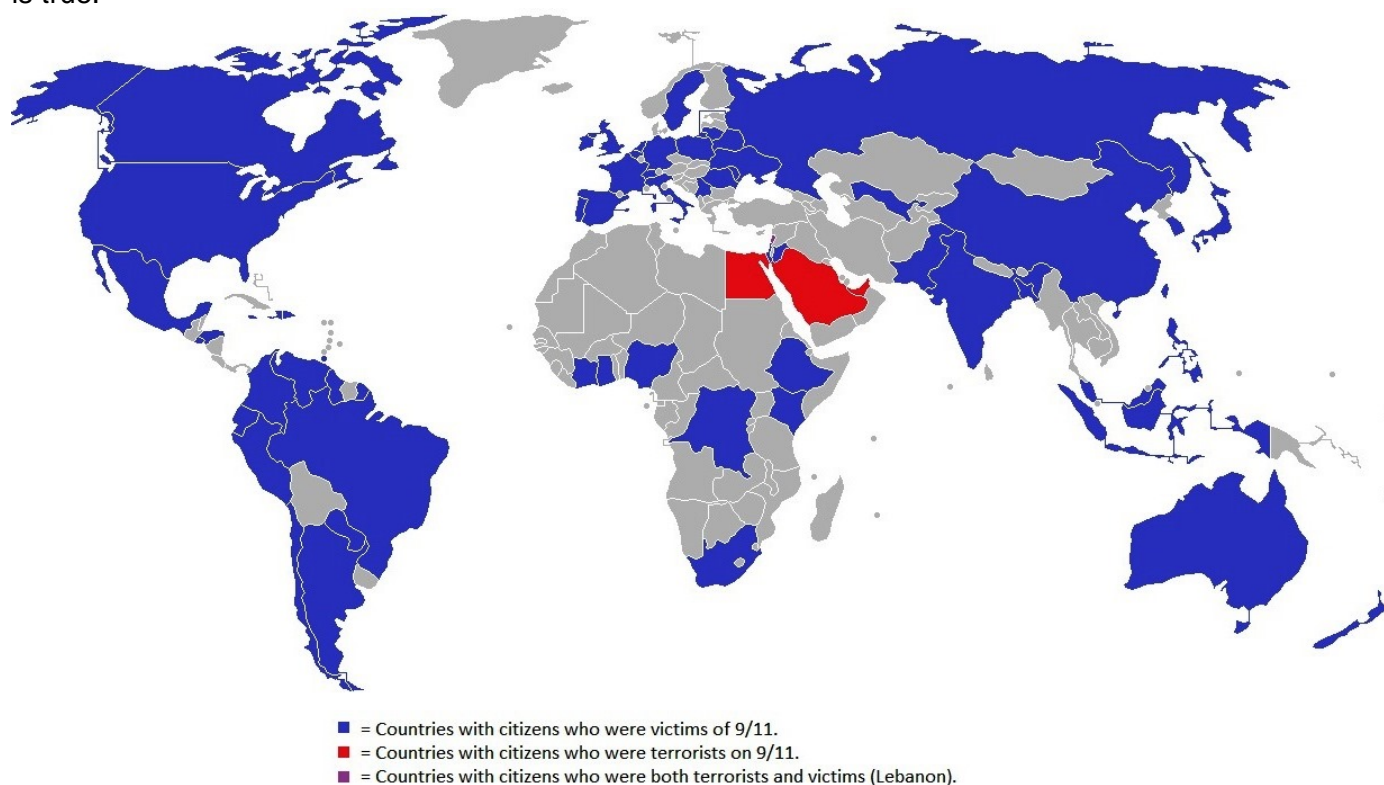

Now here in 2025, the 9-11 Truth movement across the board is rising up because the other 9-11 Truth groups focused, found evidence and I went public with much more evidence they had never heard of or considered, because enough is enough crap hurled at me by the US Deep State.

I had many emails once UK Column posted my email address on my request. Three emails from 3 nations (UK, Germany and USA) only said they watched, learned a lot and then asked: "Karl, are you Chronology 6 of the evidence?" I answered... "Yes, I am." You will see below what they have put me through.

I have been aware for many years that the US government put an illegal FISA 705(b) warrant on me via the FISC (Foreign Intelligence Surveillance Court) to spy 24 hours a day because they fear what I know. A FISA 704 is aimed at US citizens living in the US. The FISA 705(b) is aimed at US citizens like me living abroad. These cowards did not even utter my name before the FISC, I am a "702" which means I must be spied on and silenced as a threat to the DC Deep State.

Are any of us spies or a real deadly terrorist threat to the USA? The answer is no, we are targeted political enemies. The monsters in DC fear the truth more than a terrorist and ever being known what really happened on September 11, 2001 and why the US government did it. Murdered US, UK citizens and citizens of many more nations to launch a fabricated Global War on Terror. It was all about money, power, oil, natural gas, pipelines, commerce for major US corporations and insiders, and greedy defense contractors lining their pockets and all laughing at people who believed the George W. Bush lies about the "Evil Doers". He was referring to his Administration and the Deep State, not the alleged Saudi radical Islamic terrorists.

I do not know if Brian Gerrish will include this in Part 3, but here is a preview for you. Many nations lost citizens on September 11, 2001. The only thing not truthful on this map is NO Radical Islamic Terrorists died from Saudi Arabia, and the Egyptian ringleader Mohammed Atta did not die by slamming a hijacked Boeing 767 into the WTC 1 North Tower. As of 2015, Mohammed Atta was still alive. The nations in blue is true.

What hit both towers were Boeing 737 jets and that has been proven and easy to prove to Court and Jury. That alone blows the entire Bush Mythology Bubble to Hell where it belongs.

If DC thinks the TRUTH is terrorism, the countdown to no more USA Deep State has begun. Until the evil in the US government is purged, prosecuted, incarcerated in prison or executed for what they did on September 11, 2001, the chaos and decline will not stop until the evil "scumbags" are removed from power or dead. They create the chaos so people do not focus on the crimes of 9-11-2001 that were committed by the **US government**.

Imagine this and I have the emails to prove it. When the Democrats were "impeaching Trump", a total sham impeachment, someone in Pacific Time Zone was trying to extort me into being their "Witness #8" against Trump and me living in Europe since June 1, 2006. I was even threatened with prison if I refused

but sent them running for their lives when they stepped into my life mid-Sept 2019 to October 12 of that year with threats against me.

The reason they "disappeared fast" was US House Rep Jerrold Nadler, chairman of the Trump impeachment witch hunt... is a Defendant in the lawsuit we are working on and many more in Congress and other government agencies, too. Nadler's district in Manhattan is where the World Trade Center used to be until wiped out September 11, 2001. They realized quick they had pissed on the wrong feet, but what they knew and trying to use to extort me could have only be obtained by illegal US spying on me. First I am not a "foreign intelligence service" and second I am not an agent of any nation. What the Deep State hurled at me were criminal actions that violated my legal rights, my business rights and my Constitutional rights because they are afraid of me and they are terrified of the TRUTH ever being known while they rake in millions..

Before leaving the US for nanotechnology "excellence" reasons, my 7 non-US scientists and I were DARPA and Pentagon TSWG (technical science working group) level. That was because we had established ourselves as the #1 nanotechnology group in the world. Being #1 in a new paradigm sector of science made us a target. Knowing what I know and how I know it about 9-11-2001, made me personally a target.

I have been inside of DARPA many times and the Pentagon, CENTCOM army command center two times on major matters and have been inside many of the US government labs. I have even been inside of III Corps headquarters at Fort Hood Texas and the G2 Intel section of 1st Cavalry Division as they were about to deploy to Iraq with my son's Arkansas National Guard brigade attached to them as the second wave Bush sent in 2004. All of those sites are maximum security facilities and the door was open to me until Bush banned me.

Americans in general know I was trying to help save American lives of our soldiers who were sent to serve, be maimed or die for a Big Bush Lie. He made sure every project DARPA asked us to do, and we did, got cancelled or us pushed aside for US Defense contractor Pet Projects because it was me and my team. A lot of American soldiers and British soldiers, then NATO are maimed or dead because of Bush and his self-serving lies and 9-11 coverup.

I have 1 child, a son now age 44 that served 2 tours in Iraq and 1 in Afghanistan against my wishes. I know firsthand exactly what he saw with his own eyes and he knew that he had been sent into harm's way on a Bush Lie.

I was the "surprise guest" at Jimmy Walter's NYC event on September 11, 2004, "9-11: Confronting the Evidence". I was the only person that had real and new evidence that had not been previously revealed. Two CIA goons barged into the backstage area before my panel took the center stage. They threatened to terminate me in NYC if I disclosed the PANY&NJ asbestos lawsuit they lost on MAY 17, 2001. That is one of the links above "Why Do 4,000 First Responders Have Cancer?" I did not flinch or tremble, told them to go with security guards back into the auditorium and they were welcome to listen to what I had to say. I did not disclose the asbestos lawsuit. I disclosed the real and exact reason George W. Bush blamed it on Afghanistan.

Jimmy Walter and I are now close friends, we communicate almost every day. The DC Deep State has hammered on him, too. He knows what I am doing will prove he was right all along that WTC 7 was a controlled demolition and so were the Twin Towers that killed 2,753 people murdered for a DC agenda of greed.

The CIA thugs were furious, obviously did not terminate me, but did have to run home to Mama and reboot their coverup because I blew the lid off the real reason Afghanistan was blamed for something that nation did not do..

The CIA did not know I knew about Bidas Corporation, Caspian Basin accomplishments and a \$15 billion lawsuit in Texas due to interference of contract during the Clinton Administration. Big OOPS for them being so worried about that asbestos lawsuit and why the USA destroyed the WTC to launch a bogus Global War on Terror at innocent nations and murdered a lot of innocent people in NYC and the Pentagon to justify their crime spree, That crime spree murdered millions in other nations.

By any measure under US Criminal Code that act on 9-11-2001 was murder, conspiracy to commit murder, treason and war crime as an illegal war of aggression that was fabricated without just cause.

Due to asbestos they still have avoided mentioning, the death toll of September 11, 2001 is now 3 to 4 times higher than who wrongfully lost their lives on 9-11-2001 and it will keep rising due to asbestos induced cancer and more have died and more will die.

At the end of Part 2 with Brian Gerrish on UK Column, I mentioned that US has directly cost me 2.3 billion Euros in financing I had arranged to launch my company. The US has known since 2002-2003 that with liquidity I am going to hammer the defendants into prison or executions. I am not the only GROUP A PLAINTIFF bringing this lawsuit on behalf of Groups B, C, D and E. In total. There may well be 2 to 3 million qualified and deserving Plaintiffs. We are all getting either ignored or hammered to prevent the Truth from crushing the Defendants.

The following is the short list of what they did to me, my team and even a support group that has helped me continue the battle on all fronts, and adds up to more than 2.3 billion Euros.

Note that Austria and EIB (European Investment Bank) are who recruited us to Europe. Hungary had a clear shot to win because one of my original 7 scientists was Dr. Istvan Lukovits, PhD, Chemical Research Institute, Budapest. He passed away in March 2007 and I lost a dear friend that helped make us what we are and have been since 2003 but for the USA. He was a pioneer in mathematical chemistry, now taught in some universities as Computational Chemistry. With this approach, the end result can be predicted mathematically and not waste time doing "trial and error research". In nanotechnology that is a crucial skill and it took me 6 months to find him or anyone even remotely like him.

Also note that **everything the US did after 2004 was because they knew I had either found new evidence or had 100% nailed down matters that I had revealed while still in the US. The event was a complex criminal matter done by rogue elements of the US government and sometimes suddenly there would be 2 or more trails branching off a main chronology line to prove it all. We have names, entities, prior lawsuits and more the reveal what really happened and why.**

My Chronology for standing firm for the TRUTH:

1. Bush put his cousin George Herbert Walker III in as US Ambassador to Hungary to bribe 2 ministers to block me on a 250,000,000 euros Phase 1. That was 125,000,000 from EIB [European Investment Bank] and 125,000,000 from the Hungary MFB development bank as a bond issue in summer 2006. There were huge riots in Budapest Sept 18 and October 23 that year when they learned the US and 2 corrupt ministers cost them 16,000 high-tech jobs over 5-6 years. CIA was harassing everyone I was dealing with and me, too; and
2. Austria being tied for 1st place with Hungary was a different approach, EIB 125,000,000 Euros and a 100,000,000 Euros grant I did not have to pay back. They wanted to appraise 18 of our 56 patents that are the Industrial Process Patent that many have tried over and over again to get their hands on and push me aside. Austria Finance Ministry, their outside auditors and an IP attorney came in as worth a minimum of 1.25 billion Euros. There were 9 CIA people arrested including the Budapest jackass, kicked out *persona non grata* for spying on Austria Finance Ministry, their outside auditors and an IP attorney, and me. Once I see a face up close, I do not forget it and I saw his over 10 times. The other 38 patents are end products that would have a huge benefit to humanity but not commercially available yet due to USA; and
3. China came to Germany in 2007 with a delegation of 9 people, 5 from TEDA, [Tianjin Economic Development Area, site of a major Airbus A320 series Final Assembly Line], 3 PhD scientists from NIBC [Nanotechnology Industrialization Base of China], and the Minister of Science and Technology of China from Beijing. We all met for over 3 hours then the Minister offered me 165 million Euros for those 18 patents and I declined. Told China their offer was not even in the ball park to consider and they left. The Minister of Science & Technology was fluent in English, got his MS and PhD degrees from Cal Tech. So, he was not some PRC dummy bureaucrat promoted to his highest level of incompetence. For three hours he spoke only in Chinese and only to the 3 PhD's at the far end of the table from me. In all, there were 11 in that meeting, 9 from China, me and a Swiss woman that helped to get up the meeting. That Minister of

Science & Technology asked 1 question that surprised me. He wanted to know who makes our nanomachines. I told him the truth, for the first 6 months we tried to assemble a team of outsiders and I shut it down because some sleazy US companies got just a little piece of our intellectual property and went running to the big US corporations to see if they would make bigger orders than I could in start up mode. Informed him that as of March 2004 we had a Joint Venture partner in Canada that was the best machine designer and machinist I had ever met. He made extremely advanced and complex machines for Canada and US universities and government labs. So, from March 2004 forward we design and make the nanomachines, a lot of collaboration between scientists, engineers and machinists. When that Minister got back to China he created CNANE. The China National Academy of Nanotechnology Engineering to emulate us. On that 1 question he fully understood why we were DARPA level in the US. It is not just the scientists. Once they discover something it takes other skills to make it happen. Some call it a Value Chain, others call it vertical and horizontal integration. Either way, research does not mean much if it cannot be launched. We have been in launch mode since March 2004 and dealing with tons of childish nonsense from USA to protect their criminal asses; and

4. In late 2008 Rusnano (Russian Nanotechnology Corporation) made a ludicrous offer that was just slightly above what I have personally invested. I told them their \$47 million USD offer was not even beer and vodka money for the party we would throw. In June 2008 and July 2009, there 2 articles about me, my company, our technology in "Sverkhnovaya Realnost" (SuperNew Reality) high-tech magazine that is read by most of the Russia Academy of Sciences; and
5. In 2008-2009, Slovakia at #3 died due to government corruption (EIB has zero tolerance for that and so do I) and major supply chain issues that could not be resolved; and
6. November 2009 the Russian chairman of Germany Russia Business Alliance (DERUWIA.DE) wanted to come to Bratislava Slovakia to meet with me and why was not stated over the telephone by his assistant. I arranged a German-English translator because that man is only fluent in Russian and German. He had seen those 2 articles in the Russian magazine and had Russia Academy of Sciences verify to him that yes, our Industrial Process patent is #1 and makes us Top Gun in what we excel at. Chairman Vitaly Smelkov already had me booked to be the keynote speaker at ILA Berlin 2010 air show in June 2010 on nanotechnology applications in aerospace and outer space. When Chairman Smelkov showed me the panel he scheduled me for and who was to be on that panel with me, I told the translator "Tell Mr. Smelkov that I will be in Berlin but prepare himself because it is Led Zeppelin concert time." As she was trying to translate that, Smelkov informed her that he understood exactly what I said. He is a Led Zeppelin fan, too; and
7. March 10, 2010, Vienna, Austria Russia High-Tech Collaboration Conference. Over 150 Russian scientists cancelled their trip for a 1 day conference that only allowed 8 meetings of 30 minutes each in the afternoon. My last meeting was not with a Russian scientist or high-tech company. It was with an Austria agency named FFG that wanted to know why so many Russian scientists cancelled because they could not get a 30 minute meeting with me. We talked for over 2.5 hours, most of those scientists were headed to Berlin because they knew I was the keynote speaker for Germany Russia Business Alliance on nanotechnology. There is a Bitchute link below of that presentation in June 2010 Berlin. You can see what was on the Big Screens but not hear what I had to say; and
8. One man that was head of Intellectual Property for Russian Academy of Sciences was under orders to meet with me in Vienna to resolve the impasse Rusnano created with an insulting offer. He refused to meet with me and was fired when he returned to Moscow; and

Literally, the day before my presentation the US delegation was running all over the air show grounds telling everyone I was not coming to the air show so DO NOT TUNE IN the next day. The Germans and Russians overheard their lies and went behind them that I was in Berlin so do tune in. That is how utterly pathetic the US government is when desperate. Actually I arrived on Saturday and all day Sunday, Monday, some of Tuesday and Wednesday and all of Thursday and Friday, I was in major meetings with those Russian scientists that did not come to Vienna.

ILA Berlin 2010, June 9, 2010, 11:15 AM, 15 minute presentation and 15 minute Q&A from aerospace and outer space experts in the auditorium. About 250,000 were watching outside on big screens and big speaker systems. (that is why I commented about Led Zeppelin.)

I was invited because Russia had ordered 80 of the new Antonov An-124-200 Ruslan heavy airfreight jets. My company is the only one in the world that could produce what is needed to make those newer, lighter and even stronger jets. Our process can handle a market sector if the USA would get the hell out of my way and stay out of my way. They cannot seem to do that out of their fear of me and 9-11-2001.

USA and Kiev Maidan killed that Antonov project in 2013-2014, all production moved from Gostomel Airport west of Kiev and the jet engines plant at Kharkov were relocated to Ulyanovsk Russia. I worked from November 2009 to May 2013 on a huge project for Odessa Ukraine. It was cancelled by EIB and me because we felt what the USA did would lead to war, and it did in from July 2014 to 2022 when Putin intervened because there were 40,000 to 42,000 ethnic Russians dead in Donbas, many more maimed for life. Due to absurd US policies towards Russia since 2012, Americans are not generally welcome in Russia until the US grows up and can play well with others.

What I announced at ILA Berlin is all real, pissed USA off and they even broke air show rules to drown out my presentation with jet blast and noise showing off the Lockheed F-22 Raptor way out of line.. That failed when Lockheed was ordered to leave the area or land immediately, the audience was stunned. Lockheed was fined for what they did.

The first question during the Q&A period was from a high level European Space Agency scientist. He and I got a big laugh out of everyone inside and outside when he asked "Mr. Schwarz, are you ET?" I responded "I do not think so but I believe 4 or 5 of my scientists probably are. They are sort of out of this world weird!" Then he asked a serious question: "You are an American as I understand and an American defense contractor tried to drown out your presentation. My question might need to be answered in 2 or 3 parts... what do you think would happen if your technology level had an F-22 Raptor fighter jet coming to shoot you down?" My answer was in 3 parts and stunned everyone that heard it, but I added... "We do not do defense work for any nation." That spaceship is powered by quantum mechanics magnetic tunneling. That was just a theory until we built an application to prove it is real. That is why he asked me that question. I did say during my presentation when Lockheed was grounded what powered such a fast spaceship. It is not like Star Trek and Warp 9 or 10, but can reach speeds of 10-15% the speed of light. It is not a weapon of war, it is a high speed interceptor to make sure we humans do not wind up extinct. The Cosmos is beautiful but is also extremely powerful and asteroids and comets do create catastrophes.

Two federal Bundesministers begged me to give Germany a second chance, and that was not because I am German-American descent. I found out in Germany they do not like German-Americans for many reasons.

9. I cannot get into details here on this, but while in Berlin at the air show I had dinner with who is considered to be the top Russian physicist and he trained all of their top physicists. That spaceship and its propulsion system, Russia was working on the other part of that platform since USA tries to bash me to death, apparently thinking they own me and everything we accomplished. There was a huge accident in a Russia lab working on that second part. That spaceship is designed to have a weapon on it but is no threat to anyone on Earth because it cannot fire through our atmosphere. That weapon is to protect our planet from humanity winding up as extinct as the dinosaurs. The weapon is a derivative of the space propulsion system. We discovered that the first time we tested it, turned solid rock to powder and there were 3 more tests that would reduce or abolish the need for rocket launches. Like I said to the ESA man in Q&A, some of my scientists might be ET after we showed them where we set the pole vault bar and cleared it and no one else has come close since December 2003; and

After the air show, multiple websites and blogs in the US were posting things like "There is no way in Hell Karl Schwarz was the keynote nanotechnology speaker at the Berlin Air Show". They all started shutting up and idling their fingers when many people put this in their face. Out of around 756,000 people that attended that year, only 1,100 had this ID. TRUTH silences the liars.

11. Each state of Germany has its own development bank. Berlin blew off 9 of 14 months before they would even meet with me and then blew it all off as "it's too complicated to understand". It was not their job to understand PhD level science, it absolutely was their job to understand a huge high-tech opportunity for Germany. The federal ministers promised to deliver what I needed to get it done for Germany but over 35 months delivered nothing ; and
12. I was robbed in Berlin by the CIA (same jackass goon from Budapest and Vienna). They wanted my computer case for 2 videos they could not find ransacking my home. They stole computer, passport, wallet with cash in the computer case, driver license, credit cards, private bank records. The 2 videos they desperately wanted were CENTCOM commanding General Tommy Franks telling Armed Services Committee his primary mission in Afghanistan was **"the pipeline and access to the regions resources"**. That is what the huge lawsuit in Texas was all about and exactly what I revealed on September 11, 2004 in NYC. The other video was what really hit WTC 2 and it was not a Boeing 767 from Boston Logan International Airport. That fact alone totally destroys the US government's "Official 9-11 Lies". That robbery was 10:35pm, Friday, December 2, 2011 after I had flown late from Zurich to Berlin and then took transportation to Alexander Platz about 4 blocks from where I lived in Berlin. Police report specifically states CIA involved. They rushed in DC to get a passport back in my hands. I had it replaced with 1 day service in DC when I went to the US Embassy Monday December 5 and in my hands Wednesday December 7 in Berlin, from DC. If they thought that was going to appease me they were sorely mistaken. They even stole things that were in my wallet that I cannot replace like the first studio photo of my son at age 8 weeks, my driver license and my AIA card proving I was an architect-engineer, my Life membership card in the NRA, photos of my parents and grandparents, brothers and sister, photo of the day I was given my architectural license and had made the highest score in history as of 1982 in the AIA Gulf States Region on the professional exam, and photos of my 2 architect mentors E. Fay Jones and Edward F. Bruggemann, etc; and
13. In March 2012 another ugly side of the USA popped up from a weird direction. I have a friend that lives in Southern California. He is from India and from age 5 to now he and the India Prime Minister Narendra Modi have been close personal friends. They talk often. They are both from the State of Gujarat, which is where Mumbai is on the West coast of India. I was asked to be the anchor tenant in a Nanotechnology City, total new build and out of over 5,000 acres there would be 1500 acres allocated for our main nanostructures plant and multiple end product plants Made in India. PM Modi was trying to get something done for Gujarat and Hindu battered women with children and I said OK, will focus on it. Malaysia Central Bank and Singapore Central Bank both agreed to help for such a worthy cause. They each wired \$200,000,000 USD for a total of \$400,000,000 to India Bank Baroda in London. While those funds were passing thru SWIFT, the US Department of Homeland Security stole the money and directed into a US government account at JPMorgan Chase. \$200,000,000 was mobilization funds for my company and get the training program set up in India for those women to be future employees of my company.. I called the General Counsel of JPMorgan Chase to lodge a complaint, especially since battered Gujarat and Hindu women with children and no job are abused, not terrorists. She asked I call the next day, same time after she talked to DHS. Next day she informed that "the Deputy Director of DHS is who issued the order and it stands, so SUE US!"
15. Less than 1 year later after I was robbed in Berlin, one of my associates was found murdered in her home, money was still in her purse, that same video tape and still photos of 737 hitting WTC 2 South Tower were the only things missing in her home. You can find this on the Internet. Debra K. Simon murdered in the area of Baltimore allegedly by a drug addict they convicted to life in prison. Any drug addict would go for the money in the purse first, not a video and still photos of what really hit WTC 2; and
16. I gave up on Berlin, toured many places in Germany via Deutsche Bahn ICE trains and settled on Ludenberg horse country near Dusseldorf and east of the main city. I lived at An Dreilinden Drei (3) until August 2013. My neighbor across the street was the billionaire son of the founder of Schwarz

Pharma. All the the neighbors thought we were related and "up to something". He and I got along great, not so much with the nosy neighbors; and

17. While in Ludenberg, I met with many Japanese corporations in Dusseldorf. That city is nicknamed Tokyo West, having over 350 major Japanese corporate EU offices based there; and
18. I arranged a 1.3 billion Euro loan, funded in 4 tranches of 250 million x 4 and last was 300 million. First wire transfer through US controlled SWIFT was blocked and the US government went after the lender to bully the hell out of them to cancel the loan and they did. Those funds were for large projects at Halle Germany and nearby Leipzig Halle Airport, which is more heavy air freight than passengers and there are even Antonov jets there as a hub for Volga Dnepr Airlines. The CEO of that company at the time was on the same panel as me at ILA Berlin and sitting next to me. The 4th and final panel included the managing director of Leipzig Halle Airport and he and I were there for the same reason. We were all there for the same reason being the 80 Antonov An-124-200 jet order Russia made; and
19. Seeing that the USA can be quite rude, pissy and shitty to their own citizens they fear, I tried to engineer a way around them. My entire team went through a grueling 6 months due diligence process. Approved for up to 1 billion Euros of Aaa rated credit default insurance. Any default the bank is paid and the workout strictly between the insurers and me. In the banking world that is a "No Brainer" loan. During the evaluation process the US was trying to bully the insurance team. The head of the team was a seasoned warrior dealing with such US conduct and shove it up their butt when Loral Corporation did not get the EU satellite system. They did it entirely without the USA and she arranged all of the insurance for that huge project from start to finish and fully operational. She filled me in on what US and Loral did to try to bully their way to get that project. Much of what she told me was despicable conduct by the US government and US company Loral Corporation; and
20. I put that insured loan offering out to many banks and the USA went after all of them to kill it. More proof of their illegal spying on me, even when I was on long conference calls with London. 20 banks, suddenly none would respond to email, or voice messages on a Aaa insured idiot proof loan and zero risk for any bank. Finally 1 bank did call me and informed that they wanted to do the deal but the US contacted them, threatened even with direct harassment via SWIFT and FOREX on US dollars and other punitive measures. That was Bank Santander of Spain, London branch. I informed the insurance team and they called him and he confirmed it; and
21. Meanwhile in Germany two things happened within weeks that showed more true colors. You probably know the old saying "if it walks like a duck, floats on water and says quack, quack... it's a duck." I was in Dusseldorf for 21 months and what I was seeing and even hearing was... "if it looks like shit, smells like shit... it is shit." The issue of my Business Residence Visa came up for renewal. I owned a Germany GmbH, fully funded and in good standing. That is an automatic visa renewal, plus I was invited by 2 federal ministers begging me to give Germany a second chance after my ILA Berlin 2010 presentation. They blew Chance #2 in Berlin. Two women in Dusseldorf at IHK (Chamber of Commerce) and the Business Development Office, neither of whom had anything to do with recruiting me to Germany or Dusseldorf stuck their noses into the renewal of business visa and I was denied. Neither of those federal ministers would pick up the phone and tell Dusseldorf to get the hell out of my way. Neither of those woman have any authority whatsoever on Resident Business Visas. I learned later the woman at Business Development had 1 job, recruiting American businesses to Dusseldorf. That was a flashing red light to me because she was fluent in English but "0" US companies recruited by her 2 years of sitting in that chair; and
22. The next and final insult was I received a phone call from an associate and informed me that my GmbH registration number in Handelskammer.de (corporate registry) no longer shows me as Managing Director, CEO, with full contact information including address, telephone number and email address, only says "UG" rather than GmbH and no other information. My Berlin attorney informed a UG is a type of company in Germany that does not have to disclose its owners for 1 year; and
23. Bayer AG and their Little League subsidiary want whining to a court claiming I owed them 2.4 million Euros and they could not find me to serve the lawsuit on me. They were the "UG". The idiot court believed their lies and handed them my GmbH company. There had never been any communications between us and never a contract, I owed them 0 Euros. We are the high bar in carbon nanostructures, why in Hell would I buy 2.4 million Euros from Bayer Material Sciences and they suck?; and

24. About 2 weeks after the denial on business resident visa I received a phone call from a Leverkusen phone number and it was an attorney. Hmm, they said they could not find me but had my unlisted phone number. That is corporate HQ of Bayer AG. One of their subsidiaries Bayer Material Sciences was in the audience at ILA Berlin 2010 and learned that day their 60-65% pure crap was light years behind us with industrial volume output at >95% to >99.5% purity. That is the short answer of why I was the keynote speaker and they were not.
25. I met with Fraunhofer Institute many times and they are huge. Last time I checked 86 research centers across Germany and their annual budget for nanotechnology research exceeds the rest of EU combined. Many scientists at Fraunhofer admitted to me that Bayer Material Sciences compared to us was like "cave men drawing on rocks with charcoal from a campfire versus ET level stuff". It was killing their research efforts due to crappy product but being a Germany giant, they had to buy from Bayer. Our being in Germany plus their scientists, home run records would be set and Fraunhofer admitted it regarding the Halle and Leipzig Halle Airport project to those 2 managing directors in my presence; and
28. This attorney from Leverkusen ordered me to immediately hand over all patents, research notes, computers, storage devices and documents because Bayer now owned my company and even my scientists now work for them. You have never heard a German curse so much in German when I informed him the GmbH did not own what he was demanding. My Family Office does, in Switzerland and my Family Office, which is a Revocable Living Trust that even the USA cannot touch and all of that is due to lying thieving assholes like Bayer AG. I added before I hung up, thanks to assholes like you Germany just lost 16,000 jobs and Germany will not get a 4th chance from me. "Strike 3 for Deutschland, you are out!!!" and hung up; and
29. After they stole Rökkors Nanotechnologies GmbH, which was same name in Austria, we changed the name. Tokata sounds Japanese but if a person were to make that guess they are not remotely close. The word Tokata comes from the language of the Native American Sioux Indian tribe and the 1 word means "the future"; and
30. It has taken a long time, extremely long hours and a lot of money to go around this type of childish, brat temper tantrum nonsense by the USA and others trying to take us over in low ball or deceitful ways...Right now we are now barely standing but moving ahead. Some of my friends joke it must be in my Swiss-German genes, surrender is not in my vocabulary; and
31. This year on January 2, 2025 one of my associates was to fly from his location to Toronto Canada where I was from Dec 28 2023 until January 18, 2025. His flight was 5:10AM his local time, arrive Toronto at 1:50pm Canada time 9 time zones to the West. He was kidnapped at gunpoint when entering the Yerevan Airport at 1:35am. Airport security cameras saw it happen and alerted the local police. They had excellent video of the kidnapper, car and license plate. However it took them over 5 hours to track them down, arrest the kidnapper, free my friend and associate but he was forced to miss his flight. The next day the local police called him and informed they were ordered to release the kidnapper due to US pressures that were brought to bear. Anyone can do that math if they read the foregoing and paid attention; and
32. No one has to tell my team what a skunk smells like; and
25. We had a private driver that is known and trusted take him to Batumi Georgia where he could purchase a ticket on money we sent him, fly Turkish Air to Istanbul and take the early morning flight to Toronto. He called me at 3pm his time, 6am my time in Ontario that he had arrived and within 1 hour he was purchasing the ticket and fly to Istanbul, fly early next day to Toronto. I have not heard from him since that phone call. His 2 sons have not heard from him and they talk every 1 to 2 days regardless of where he is. The Georgian Federal Police and Batumi Police have not found a single clue what happened to him other than he was not on the flight from Batumi to Istanbul.
26. He was coming to Ontario and show ID, sign in person a document that would have transferred \$5 million USD to my account (at the time over \$7 million CAD) and that would expedite another 64 MEUR during the rest of this year and we would be in full attack mode on who really did September 11, 2001 plus pushing ahead on a major project you will read about below. It would also expedite another 22 million Euros in Europe and another \$10 million also in Europe, under my control.

27. Please understand this because it is important. I contacted Brian Gerrish due to his interview with Joseph Sweeney former head of CIA Litigation Division. That was October 29, 2024. <https://www.ukcolumn.org/video/a-conversation-with-joseph-b-sweeney-former-cia-head-of-litigation-and-the-author-of-a> There were things discussed I know a lot about so Brian wanted to see information. Long before Part 1 and Part 2, Brian has seen the Beast I am up against and so is all of humanity. We have barely shown the tip of an iceberg in Part 1 and Part 2. Huge amount of evidence, names, chronologies that all point straight at the destruction of World Trade Center.
28. My team and I parted company with DARPA when we were informed that the only way we could "be on the team" is if we subordinated ourselves to Battelle. I told them no way in Hell would we be involved in weapons, nano-weapons and nano-genetic specific weapons. When I first saw the following in 2000, I thought PNAC had lost their damned minds. When I found out that is exactly the long-range intent of the USA I was gone.

In September 2000 PNAC released "Rebuilding America's Defenses" a report that promotes "the belief that America should seek to preserve and extend its position of global leadership by maintaining the preeminence of U.S. military forces". The report states, "advanced forms of biological warfare that can 'target' specific genotypes may transform biological warfare from the realm of terror to a politically useful tool". See Exhibit G.

That to me is like... "CANNOT COMPETE...SO CHEAT WITH GENOCIDE !"

On the exact day Putin intervened in Ukraine, the Military HQ and Ukraine SBU (like their Neo-Nazi Gestapo that shares offices with the CIA in Kiev) issued an order to destroy all records showing Ukraine collaboration with 2 US companies. MetaBiota, largest shareholder was or is HUNTER BIDEN and Battelle. I knew in 2000-2003 why Battelle was leading the human genome project at Oak Ridge National Laboratory near Knoxville TN. I have been there many times while we were doing our research and moving into the position we could be in but for Bush and my knowledge base on 9-11-2001 and many other things in USA that is not pretty or something to salute or pledge allegiance to.

I have a copy of that order straight from Ukraine dated Feb 24, 2002. Brian Gerrish has it, too as of last Friday. The order is in Cyrillic alphabet except the two in Roman alphabet names clearly stating MetaBiota and Battelle.

Bush created Project BioShield in 2003 as a forced vaccination program of 10,000,000 First Responders and then every citizen in the USA with smallpox and anthrax vaccines that are not even needed. The SARS CoV-2 / Covid-19 fraud was Project BioShield down everyone's throat. See how many humans will roll up their sleeve for a total scam and either commit suicide, death over a longer time frame, sterilized or ruin their autoimmune system to shorten their life. He put Battelle in charge of all US weapon labs. In 2006, Bush created BARDA and a new military position inside of DHHS named ASPR, #2 in charge if a national emergency declared by DC and US health care is under military control as #1 in charge like Covid fraud.

During the Obama-Biden Admin, they went global putting illegal bioweapon labs in South America, Africa, many in Asia close to China's border, Tbilisi Georgia near Russia and all over Ukraine close to Russia. What they are doing is research to develop genetic-specific weapons to get rid of nations, people, cultures the USA hates with a passion.

The foregoing is Chronology 6 that I was asked about after Part 2 aired and was seen by many across 16 time zones. Everyone is waiting on Part 3 because many know what was done to my friend and me this year was just to keep me financially strapped and chained to the wall.

I am like that lion in the famous St Augustine quote: "The Truth is like a lion. It does not have to be defended. Just set it free. It will defend itself.". That Truth is coming in Part 3.

So what is NanoEV ?

To make EV battery for 1 car requires ripping up on average 500,000 tons of our planet and that is not "green". Some the the ingredients go to metal smelters to refine the metals. The lithium is leached in ponds and once that is done, the supply source has run out, those ponds are a toxic dead zone

forever. You could excavate that out, refill but then where to put the toxic? On average EV car batteries will only last 5-7 years depending on intensity of use and then cannot replace that battery, entire car will be recycled junk and some toxic disposal problems. Literally, an EV car would need to be completely disassembled to replace the battery. In France that are about as many acres as a farm of fields with EV cars with dead batteries and replacing them is far too expensive to even try.

You will see a 2023 chart below regarding automakers. If you are good at math, multiply that number of cars made in 1 year times 500,000 tons of Earth just to make 1 EV battery. It is a staggering number and this mantra of all cars by 2035 must be all electric that route is not even close to feasible and would be horribly damaging to our home planet and environment.

Current EV have to be charged. If in your garage, there are toxic fumes from charging. If it catches on fire, EV car and house are gone and maybe your family with it. Spraying water on a burning Lithium ion battery increases the volatility of the fire, it cannot be extinguished with water. Charging takes time and wastes your time.

NanoEV has no emissions, no toxic issues, no charging needed, no fuel input and no distance limitations. The NanoEV is an electric generator under the hood of the car and made possible only with the nanotechnology aspects I control with 2 other key men on the team.

German physicist Max Planck discovered some fundamental things about energy and he was absolutely right. However, until nanotechnology appeared on our "technology ladder" the most powerful thing he discovered could not be tapped or unleashed. That being the Planck Longitudinal Force. In a way we humans sort of instinctively know it is real. If you are alive, every cell in your body has minute energy that keeps you going.

Our Sun heats our planet from 93 million miles away due to this force. We can sort of capture sunlight with solar panels but the Sun does not always shine and the efficiency of solar panels is nothing to brag about, plus recycling them is a big toxic waste issue.

The NanoEV unleashes that force for automotive and is only possible with the level of nanotechnology expertise my team has demonstrated for over 20 years from DARPA, Pentagon TSWG to now..

Until recently only 2 major automakers know about NanoEV. Those being #2 Volkswagen Group and #8 Honda. This is where having "inside information" helps. Volkswagen Group is not majority controlled by giants like BlackRock, Vanguard or State Street, Wall Street or Germans. Three Austrians control 53.6% of Volkswagen Group and they are same family but names are Porsche and Piech. My contact is the largest shareholder at 25.1% of the #2 automaker in the world. He sent me to divisions Audi and Skoda so they know, too.

Right now #8 Honda is merging #9 Nissan under their wing and will catapult them to #3 in the world. I have many close friends in Canada that work for Honda at Alliston where they make on average 1,000 Civics and 1,000 C-RV vehicles every production day. It is a huge and impressive operation, I have been through the entire plant on a personal tour. Honda also makes about 40% of the engines in Alliston, the rest come from the US to keep production moving. Honda's top management from Tokyo even came to Alliston in 2019 because I was in Ontario.

Also right now Volkswagen Group is building a \$7 billion EV battery plant in St Thomas Ontario and Honda a \$15 billion EV battery plant at Alliston. Both know, within 3, 4 or 5 years they will have to retool for NanoEV if I can get it launched. They build cars, our expertise is what makes NanoEV a reality,

What NanoEV is and why it is a huge leap forward in automotive is not known by many because we are going around the USA this time.

That same insurance team and the Aaa rated insurers are still "all in" and behind me, but at a much higher number of \$2,500,000,000 Euros Aaa rated credit default insurance. That is a "No Brainer" loan and this time we are making sure the USA cannot wreck it. This time the insurance, me and the banks do not give a damn about petty USA actions and that is the purpose of this email plus letting people know what I have had to endure as Chronology 6 but we are still moving forward.

We passed the following with Perfect "10" on each item and only nanotechnology group to ever quality for credit default insurance since banks do not have the talent to even grasp this new science of nanotechnology.

Insurance Risk Analysis Check List

1. Political risks
2. Supply chain risks
3. Vendor supply risks (outside OEM collaborating with us on key projects.)
4. Technology risks
5. Facilities operational risks (There are many in nanotech, our facilities and nanomachines are already designed to negate.)
6. Credit risks
7. Commercial risks
8. Cross border risks
9. Moral Hazard
10. Implementation risks (unforeseen delays, bureaucracy, timing issues, etc.)

The following is like a 40,000 feet flyover overview that something radically different and far more advanced is coming..

https://fractalfield.com/nanotechconfidential/TOKATA_GROUPautomotive.pdf

I tried on X to see if anyone would get this to Elon Musk's attention and on March 21, 2025 was completely banned when I posted the truth about Tesla's 2024 annual report. They made more money charging cars and selling regulatory credits than selling cars. The analyst said the numbers were horrible and a warning sign. Boom... I was blasted off X for simply telling the truth about their 2024 performance.

This is not a venture capital play for IPO. NanoEV will always be a privately held company but the only division of my company that has outside owners that want to be a part of the future. We do not know yet how scalable up or down NanoEV is. For example, if up the markets are large trucks, farm and construction equipment, maybe mining, trams, trains, time will tell. If scalable down, may go to lawnmowers, ATV's, hand tools and many other applications with smaller motors. The focus has been on

automotive because the current EV route is horribly damaging and toxic to our home Planet Earth. It is not durable, short life span, it is not sustainable, and then a toxic waste problem nightmare to go all EV as the globalist and governments are pushing..

We are retaining 51%, some US legacy investors since 2002 will hold 10%, and the other 39% will hold whatever percentage they contribute to help us over the finish line. I do not need to raise \$5 million to replace that hit we took in January 2025.

At the earliest possible moment I need \$15,000 to \$25,000 and then escalate that fast to \$100,000 to \$250,000 on my bank account and the US attorneys will start preparing the lawsuit, I have stability again to take action, and some major travel to do.

The 500,000,000 Euros part is to build the buildings and build the nanomachines to make the nanostructures that enable NanoEV. Czech Republic has 1 last chance to get that loan done or they get eliminated. That process has already started and will be decided in May we put that in Czech Republic or put it elsewhere and will not even be in Europe.

The end goal is to replace as much of the \$5,000,000 that the USA screwed me over on January 2 and 7 this year. It is whatever I can raise over the next 60 to 90 days that will have the 39% stake in NanoEV. That may be 1 person, 50, 100 or 1,000.

I offered Hungary, Austria and Slovakia a second chance since they were 1, 2, 3 in that order and got no response so they are now eliminated. The insurers advised that Brazil, Uruguay, Argentina and Malaysia would be their first choice but know every move I make. They will wait to see if Czech Republic banks (3 of them) wake up and that is already in progress. One of my key executives has already contacted those 3 banks and told them Do or Die time for this nation. If they cannot do a Aaa rated and insured loan, they lose. That will be determined by end of May or maybe a little into June.

These are not small plants and I have already initiated site search and checking into all power and supply chain logistics.

The NanoEV will be a Swiss company and all patents both Swiss and WIPO [World Intellectual Property Organization] that is based in Geneva Switzerland. Even the transmission of the car will be radically different from what automakers use today. Lots of engineering left to do.

Our Global Operations Center was planned to be in Prague since 2015 and they have 1 one last to get that and make the nanomachines here. We can make the nanomachines on 50 Hz or 60 Hz electric grid but the bigger 2 billion Euros plant must be on 50Hz. That narrows the list down for the bigger plant to Uruguay, Argentina and Malaysia, Brazil is 60Hz) and travel involved on site selection. Brazil is only being considered to make our nanomachines, not the much larger plant that puts those machines into operation and use.

One of my team is former Volkswagen Group, German, Czech wife and they live in Brazil. He will immediately go into action regarding the Top 4 automakers in the world regarding NanoEV and he knows I have already communicated with Volkswagen Group and Honda. He will start off with them but quickly shift to #1 Toyota and soon to be #4 Hyundai.

The US has tried to turn my life into a living Hell for over 20 years because I am like their worst nightmare come true. I am full bore 7 days a week, 16 hour days because wars are not over until they are won and over.

If anybody are interested and could help in my Project, or know people who are, feel free to forward this email to them and I can provide transfer information to my bank in Canada with appreciation.

Best regards,
Karl S

P.S.: From the additional correspondence attn. Curt Weldon (ex Vice Chairman of US House Armed Services Committee) and other respondents:

... I am sharing some information I know that did not come up or get completely covered in your recent video interviews. I was struck by how pivotal 1999 was in understanding what happened September 11, 2001 and why.

1. Your disclosure of Able Danger, Fusion and everyone but CIA wanted it; and
2. FBI detected an illegal CIA - Saudi GDI operation in California aimed at recruiting "radical Islamic males" to "fly jets" and CIA stopped sharing crucial intelligence with FBI counterterrorism experts; and
3. The foregoing was confirmed by former DEA Donald C Canestraro working for Military Commissions and 2016-2021 interviewed all CIA and FBI people with touch points on the lead up to 9-11-2001 and after, Even the one that Phillip Zelikow fired at 9-11 Commission. He could not interview 1 CIA person who had been in UBL Station longer than anyone else because she died in a bombing in Khost Afghanistan in 2009, See link below; and
4. I met 2 men from Bidas Corporation, an Argentina based energy company in November 1999. They shared with me their accomplishments in the Caspian Basin area, Turkmenistan, Afghanistan, Pakistan, colossal interference by Clinton Admin, Unocal and Saudi owned Delta Oil and how all of that led to a \$15 billion interference of contract lawsuit in Texas state courts Bidas v Unocal, Delta Oil, et al. I was watching all of that well before September 11, 2001. Then it escalated to US District Court Houston, two appeals to Fifth Circuit US Court of Appeals where Bidas won in 2003 and 2006. Bush tried to rush in an appointee to Fifth Circuit to try to quash that appeal. Senator Patrick Leahy (D-VT) postponed her confirmation hearing until after Bidas Corp prevailed on September 9, 2003. In August 2003, Bush's appointee called me at my home on another matter of Bush Scumbags and capital markets fraud. That is detailed in Chapter 14 of my book including our conversation; Chapter 5 of my book details the anthrax attack on Leahy, Feingold and Daschle with the anthrax attacks 1 week after on September 18, 2001. I was on the phone 3 times with FBI about why they were leaving off the list the mostly likely suspect DynPort Vaccines LLC, Reston VA. They had the Ames strain anthrax because BioPort did and DynCorp took them over to avoid huge court order judgments against BioPort. When my office was in DC 1990-1996, I lived in Reston VA. Chapter 7 of my book reveals that the 2003 "BOLO: Saudi Dirty Bomb Suspect" alert was 100% fabricated terrorism by Mueller's FBI. They knew within 15 minutes exactly where he was, phone call was made from my home by Canadian girlfriend that had known him for 2.5 years, and FBI never went to talk to him. What is on Wikipedia has ZERO words of truth except what the Saudis and Adnan Gulshair el Shukrijumah's mother said. The rest of US Deep State made up shit; and
5. Alex Jones was also on Tucker Carlson and being lauded as the first to predict September 11, 2001. That is absolutely not true. Two months before Alex Jones, Arizona internet radio show host Bill Cooper revealed the CIA false flag going on in California and what was going on at a Colorado airport to convert piloted jets to UAV. He was shot dead by police in November 2001 and was apparently shot in the back because he was running away from the police. I have no way of knowing who Cooper's contacts were but I have been to that Colorado airport to verify which US Defense contractors were located there and what Cooper said was true. Small airport sort of in the middle of nowhere; and

My instincts were Osama bin Laden was not in a cave in Afghanistan due to something I knew from a contact in Riyadh Saudi Arabia. Are you aware of what he was being treated for on the Iran military hospital? If not, that is revealed just below.

The following is in my book 'One Way Ticket to Crawford Texas', our lawsuit draft and a document I will share with you on another link below. Hamid Mir is a highly respected reporter and columnist in Pakistan. Mullah Mohammed Omar was the head of the Taliban at the time.

"The following is copied and pasted from the Schwarz book (January 2004) as it appeared in a foreign newspaper and in the book, Chapter 3, pages 88-89. The link to this article was blocked on the Internet shortly after it was published and was posted on the newspaper website in English:

11:01 2001-11-22

Bin Laden: Not all Americans are bad

"Mohammed Omar predicted the current campaign by the USA in Afghanistan **5 years ago**, claiming that when the Taliban would not allow the US to build a pipeline they will begin to attack us, justifying it with Bin Laden. **[Plaintiff's notice to the Court is those 5 years leading up to September 11, 2001 is when Bidas Corporation was under full assault from multiple US and Saudi parties to block the Bidas SAPIC TAP]** [emphasis added]

Omar's words are reported by Hamid Mir, who made the last interview with Osama Bin Laden, who declared that he is not against the American people, only the politicians and the state.

In the first interviews, Osama Bin Laden had declared himself against all the American people, but he had changed. He admitted that there were many good people in the United States and it was the politicians and State, which he despised. He told Mir that he had seen many western people on television protesting at the bombing in Afghanistan and concluded, "They are good people. They are not Moslems, but they condemn the bombing".

It was a known fact that Osama bin Laden had acute kidney disease and failure and it was reported in 2003 or 2004 that he had died. That obituary notice link was forever blown off the Internet, so it is unlikely that President Obama and Hillary Clinton rose to the occasion as American heroes and had him eliminated as they claimed, because he was already dead. The SEAL Team 6 that supposedly killed "Osama bin Laden" was killed shortly later in a helicopter crash in Afghanistan. That may well have been to make sure there were no witnesses as to who was really killed that night in Pakistan."

At the link below are Part 1 and Part 2 interviews of me and Brian Gerrish of UK Column. Part 3 is in the works. Please go to the PDF with white background and see what I reveal in the 40-page PowerPoint and is now the PDF. The PowerPoint is merely excerpts from a 240 page document I prepared for US attorneys so they could get their heads around how deep the crime is and the coverup goes. In over 2 hours, Brian Gerrish and I did not get that entire 40 page PowerPoint on the record.

FYI, Phillip Zelikow was one of the first defendants I put on the Defendant List and not just because of the 9-11 Commission. Thanks for adding what he did to Lt Col Tony Schaffer.

I watched your interviews with Tucker Carlson and Clayton Morris twice and double checked what you said as compared to what we already know. I think who you are calling "Scumbags" are the same people I have been since 2002.

Only Saudi scumbags our investigation revealed are business partners on what was going on in Caspian Basin re: Bidas Corporation, the lawsuits mentioned above. We later learned about Delta-Hess (Cayman Islands) that is a joint venture between Amerada Hess (former CEO Thomas Kean Chairman of 9-11-Commission) in the Caspian Sea off the coast of Azerbaijan. When we dug 1 inch deeper, one of the two owners of Delta Oil is Khalid bin Mahfouz, brother-in-law of Osama bin Laden.

There are a lot of American scumbags and 1 Kuwaiti, no Saudi defendants because their only crime is commercially abusive business practices and staying mum about Delta-Hess. As for the demise of WTC, they hoped to benefit but were not involved in the crime in NYC or Pentagon..

You will understand the following better if you see that PDF first. Former FBI John Patrick O'Neill died along with the NYFD that made it to the 78th Floor and 1 minute later WTC collapsed. It was controlled demolition and we found the evidence as to how they did it and who did it..

"Is everyone supposed to believe Osama bin Laden and/or Mohammed Atta planted those bombs in WTC 1 and WTC 2, so they could join in with Lucky Larry Silverstein on a really big "shock & awe" controlled demolition show on September 11, 2001, including the WTC 7 controlled demolition at 5:20pm, and blame it all on Afghanistan and Iraq? [i.e. a Bush specialty modern atrocity propaganda.]

It was reported that Jerome "Jerry" Hauer, deceased, was the person that got former FBI John Patrick O'Neill (February 6, 1952 – deceased September 11, 2001. **See Exhibit H**) hired as head of security for the World Trade Center shortly before September 11, 2001. O'Neill was an American counter-terrorism expert who worked as a special agent and eventually a special agent in charge in the Federal Bureau of Investigation Counter terrorism unit. In 1995, O'Neill began to intensely study the roots of the February 26, 1993 World Trade Center bombing during the Clinton

Administration after the eventual capture of Ramzi Yousef, who was the alleged leader of that 1993 plot.

Partly due to personal friction he had within the FBI and federal government due to his inquiries and focus on the February 26, 1993 bombing of WTC 1 North Tower, O'Neill left the Bureau in August 2001. He then became the head of security at the World Trade Center, where he died at age 49 while helping others to evacuate the South Tower during the September 11 collapse of 3 high-rise buildings and "0" high rise steel buildings had ever collapsed anywhere in the world due to minor fires or major fires until September 11, 2001.

Was O'Neill offered the job because he asked too many relevant questions about the February 26, 1993 bombing of WTC 1 North Tower with purported FBI assistance to the "alleged terrorist"? It must be considered if O'Neill was being shunned, ostracized, harassed due to his focus on the February 26, 1993 bombing of WTC 1 North Tower to the point he left the FBI, and the entire WTC complex was doomed due to losing the asbestos lawsuit on May 17, 2001, silencing him may have been a high priority to the US government. However, that did not definitely put O'Neill on the high priority elimination list of Osama bin Laden or even the likes of Mohammed Atta, et al. It is doubtful that Osama bin Laden or Mohammed Atta had ever heard his name.

I do not have any contacts with the NYPD or NYFD like you have. However, in our lawsuit they are one of the groups of Plaintiffs as First Responders, the clean up crews, and the WTC tenants that were willfully exposed to massive amounts of asbestos and why so many have cancer or have already died from it.

I do not know where Architects Engineers for 9-11 Truth got a certain video but as for WTC 7 being a controlled demolition that is now a busted matter and heads will roll. Richard Gage of AE911Truth did a video January 28, 2025 about the controlled demolition of all 3 towers. Regarding WTC 7, he reveals a video of a NYC employee walking down the stairs. He was inspecting WTC 7 to make sure all people were out of the building. He is complaining because he had to talk down 36 floors because they started blowing the elevator shafts while he was up there.

I am a former architect-engineer and design-build CEO. The elevator shafts are always blown first due to 2 reasons. First, they are merely penetrations thru all floors and do not carry any structural load of the building. Only load is the elevators, counterweights and people load and nominally attached to the main structure for stability. Second, if the shafts are not blown the rest of the building would be a rubble pile and might have a very tall steel skeleton standing that would be a nightmare and dangerous to bring down separately if it does not fall like a tree first and cause more destruction and possible injuries or deaths.

The following 3 messages were sent to AG Pam Bondi yesterday May 2, 2025. I have sent other messages over the past 60 days and posted them all on my Gab social media.

Yesterday marks the 20th Anniversary of my announcing a bid for President of the United States. Local media in Texas covered it and many thousands of people listened to a 2 hour radio show that afternoon when I explained to them in detail what the real problem is in DC, why the 9-11-2001 matters are a total coverup and what it would take to fix it.

Message to the Attorney General, Department of Justice

Hello Attorney General Bondi.

I have requested for months that either the White House or your office send me a direct email address that can receive URL links or documents regarding full disclosure on September 11, 2001. To date, no such email address has been provided by The White House or your office. My side is trying to be open and fair with the new Trump Administration as to what is coming. Even President Trump and Rep Anna Paulina Luna promise a full disclosure but most Americans do not believe that, neither do the various 9-11 Truth groups nor do I.

I am going to send you another message after this one that has excerpts as to what is coming.

My step uncle was Wilbur D. Mills (D-2nd District Arkansas, 1939-1977), former Chairman or Ranking Member of US House Ways & Means Committee from Eisenhower, thru Kennedy, Johnson and Nixon.

After the JFK assassination, my family watched DC turn a Church of Christ man that did not drink alcohol into a chronic alcoholic. My Christmas present one year was a copy of The Warren Commission Report, signed by Wilbur with a personal handwritten note to me.

To go one step deeper, my stepfather was US Treasury CID, part of the Anti-Mafia Task Force and nailed many mafia figures. He was also one of the federal agents that were sent to New Orleans to arrest Prosecutor Jim Garrison and confiscate all of his files as he was preparing a case to sue the US Government for the assassination of JFK. Finally President Trump comes along, declassifies 60 years later and damn... the CIA were involved in the assassination of JFK.

After my stepfather reviewed for 2 weeks everything Jim Garrison had, I asked him what he thought. First comment... "throw that Warren Commission gift in the trash, it was a total US government coverup". His second comment was... "NEVER trust the US government to investigate itself for criminal actions it committed".

That absolutely applies to September 11, 2001."

Recently Curt Weldon, former Vice Chairman US House Armed Service Committee had interviews with Tucker Carlson and Clayton Morris on "Redacted", Much was disclosed and most my team already knew. What we did not know filled in huge blanks. The Year 1999 was major on explaining what really happened on September 11, 2001. Mr. Weldon revealed the Able Danger software program FUSION that everyone wanted except the CIA. The CIA also stopped sharing crucial information with the FBI. I met a company in 1999 that filled me in on their Caspian Basin accomplishments including Afghanistan and certain Clinton Admin actions that led to a \$15 billion lawsuit in Texas. There was something else in 1999 for Court and Jury.

These excerpts are from a 40 page PowerPoint I have been trying to send the White House and/or you.

"Most Americans forgot or never knew that World Trade Center 1, North Tower was bombed on February 26, 1993. Or, that FBI Director William Sessions was summarily fired by President Bill Clinton because he had launched an internal investigation as to who in the FBI aided and abetted that crime." (That came out in the trial, I knew 2 weeks after he was fired.)

"In 1991, a parallel lawsuit was filed in US District Court Newark NJ against the PANY&NJ insurance consortium as PANY&NJ, Trans-Hudson Corporation v Affiliated FM Insurance, et al regarding asbestos removal and reimbursement for work done in the highest 10 floors of office space of WTC N1, North Tower. Those 10 floors were where the first alleged hijacked jet (Flight 11) hit the offices of Cantor Fitzgerald, Marsh McLennan, and Nishi Nippon Bank of Japan." (The PANY&NJ lost a \$6 billion asbestos lawsuit on May 17, 2001.)

9-11 Truth is about to sue the US Government for 9-11-2001, there are about 2 million Plaintiffs. I am Group A due to 2.3 billion Euros of harm hurled at me, and so are the other 61 nations that lost their citizens on 9-11-2001 due to US Deep State."

Hello AG Bondi,

One last matter. I have known for many years there is an illegal FISA 705(b) warrant on me to spy 24 hours a day and wreck my life and business. I have had multiple clashes with CIA in Europe, including being robbed by CIA in Berlin in December 2011 to get 2 videos I kept in my computer case at all times.

Just because I wrote the book on George W Bush, 200 radio shows and about 200 articles and I have evidence of what really happened 9-11-2001 and exactly why.

I finally had written proof when the Adam Schiff gang tried to extort me into being Witness #8 in their witch hunt impeachment of Donald J Trump, #45 as POTUS. I have all of those emails that were coming out of California time zone.

That alone is a violation of my legal rights, business rights and Constitutional rights and it is going to hurt USA for what they did. I am not a Foreign Intelligence Service nor am I an agent of any nation. When we were still in the US we were DARPA and Pentagon TSWG level. We refused to subordinate to Battelle and damn, their name and MetaBiota pops up on February 24, 2022 when Putin put an end to illegal bioweapons labs in Ukraine.

The main thing they stole was a video of what really hit WTC 2. It was a 737, not a hijacked Boeing 767 from Boston Logan International Airport.

Another person that had that video was murdered in Baltimore to get her copy of it about 1 year later in November 2012.

This is not going away by ignoring it. Thousands of people over 16 time zones have everything I know. They are allies, right now USA is not.

The lawsuit is RICO, Civil RICO, VICAR and many other criminal violations of US Criminal Code. Some of those laws are extremely serious beyond treble damages, punitive damages. There are no Saudis named, lots of Americans and 1 Kuwaiti.

There are many prior lawsuits, names and corporate registrations that reveal it all."

++ **May 3, 2025** posted on <http://gab.com/nanotechexec> :

"I already know why White House and AG Bondi are not responding. They were planning a 9-11 disclosure as 9-11 Redux to protect the "scumbags" that Curt Weldon was talking about with Tucker Carlson and Clayton Morris on Redacted.

Americans should be furious when they learn those scumbags are not Saudis, they are Americans and 1 Kuwaiti.

Same family had a 15 year old girl crying to Congressional Human Rights Caucus about Iraq atrocities in Kuwait City she did not even see. Daughter of Kuwait Ambassador to USA living in DC area. GHWB and Congress used that LIE to justify Desert Storm 1991. Full investigation deemed her words and others using them "MODERN ATROCITY PROPAGANDA". So was 9-11-2001.

Weldon revealed that 4 intel people informed him that Osama bin Laden was not in Afghanistan. Bush used the excuse he was gonna get Osama. He was in Ladiz Iran, Balochistan Province about 12km from border with Pakistan. That is why his last interview with Pakistan reporter Hamid Mir is in my book, it is in the lawsuit, and in the PowerPoint that Part 1 and 2 with UK Column are based on. bin Laden was being treated at military hospital near Tehran for kidney failure, Weldon did not mention what he was being treated for at that hospital.

Osama bin Laden was dead *long before* POS Heroes Obama and Hillary "bagged him" and dumped the body in ocean.

Most Americans missed this news flash. The longest serving CIA agent in UBL Station, ALEC Station was killed in this blast. She probably reported in that Osama was dead, so they killed her."

For your information, the lawsuit is drafted and that includes some First Day Orders and 25 sets of interrogatories. A US RICO Plaintiff attorney has some work to do regarding the "Predicate Acts" part of a RICO complaint. Otherwise, what they have on their desk will shred that evil part of the US Deep State that did 9-11-2001.

The first set of interrogatories and deposition under oath will be Donald J. Trump. He will have to based on the precedent set by SCOTUS in Clinton v Jones, an 8-0 decision and even Associate Justice Breyer abstained but filed a "Concurrence" memorandum opinion. If Trump will tell the truth, we do not think his presence in Court before Jury will be needed. I do not know everything Trump knows but I know enough to put him under oath first.

Zelikow is in the Top 25 for interrogatories and deposition and he will get hammered. The second set is to Howard Lutnick, CEO Cantor Fitzgerald and only survivor of Cantor Fitzgerald on September 11, 2001, and current Secretary of Commerce in Trump Admin. That is the 1991 matter I alluded to above and a major payment was due September 12, 2001 that apparently did not happen. Amount \$120 billion and implicates many including possible the former Goldman Sachs executive as Chairman of PANY&NJ that signed that cushy deal with Larry Silverstein on July 24, 2001. That matter is addressed in Part IV Pop Goes The Bush Mythology Bubble.

Your comment to Tucker Carlson that the final solution and outcome of 9-11-2001 is going to be ugly, is absolutely true.

Thank you for standing up for the Truth. I have been on this matter since 1991 while my office was in DC from 1990-1996.

If you go to that "fractal field" link above make sure you see "Pop Goes the Bush Mythology Bubble Part VI". That one article drove George W. Bush back to heavy drinking. A now deceased friend in Houston overheard a major conversation talking about me and Part VI and how in Hell did I find out. I sent him the article when it was first posted in the US.

Later today or tomorrow Parts 1, 2, 3, 4, 5, and 7 will be posted on same website.

I knew who you were while in DC but our paths never came close to crossing, even when my scientists and I were assisting DARPA and Pentagon TSWG and a few times even Rapid Equipping Force. Bush killed all of that because he knew he and I are coming to blows...

Best Regards,
Karl S
